

International Trade Fair of Environmental Protection POLEKO 2011

2011-11-21

On 22-25 November will take place International Fair Trade for Environmental Protection POLEKO in Poznań. The main theme of the 23rd edition of POLEKO, indicated by the Minister of Environment, is "Resource efficiency - effective use of resources". POLEKO exhibition will include, just like last year, the following four exhibitions:

- Clean Energy Exhibition,
- Recycling Exhibition,
- Control and Measurement Equipment
- Science for the Environment.

In this year except fair a number of exhibitions will be held dozens of seminars, thematic conferences and trade fora.
